### About Me

I'm 21 years old and i currently live and study in Corfu, Greece. I'm interested in full stack programming, data management and recently I've started working on natural language processing and machine learning. I'd describe myself as a perfectionist that's always looking for new knowledge. I like new challenges and i hate routinization.

### Projects

All my projects are on my Github profile

### Experience

Barclays bank junior data scientist

Date Range ( November 2019 - present)

### Education

Ionian university department of informatics Date Range (2017 - present)
